

SQH CONNECTOR

Squib connectors

This connector for air-bag has intelligent CPA, which allows locking the connector, incomplete mating detection and release of short-circuit at the same time.

Features

● Compact design

This connector is approximately 13mm smaller than the SQS connector in total length (31.3mm→18mm). This connector can fit in the outer diameter 25mm or less of an inflator.

● Mating

Intelligent CPA adopted. It enables the connector to be locked securely and prevents incomplete mating on the assembly line resulting in improved connector retention force.

● Terminal construction

It is designed to prevent the deformation of the contact part when processing wire harness by protecting the contact part of each terminal with a box.

● Scooping (kojiri) preventive construction

Using a shunt ring with a countermeasure for scooping (kojiri), the resistance to scooping (kojiri) insertion and withdrawal is improved.

● Noise suppression

Ferrite core provides simple and reliable noise suppression characteristics.

Specifications

- Temperature range: -30°C to +80°C
(including temperature rise in applying electrical current)
- Insulation resistance: 100MΩ min.
- Applicable wire: CAVS/ AVSS
0.3mm² to 0.5mm²

* Compliant with ELV/RoHS.
* Contact JST for details.
