

SPLICE FOR HEATER WIRES

Splices for vinyl-insulated wires and heater wires

This splice is used to connect a vinyl-insulated wire to a defrosting heater wire of a refrigerator or a freezer. The barrel of the splice has a lid feature that prevents the heater wire from being damaged or broken during crimping. This ensures a reliable and stable connection. Various heater connectors are also available.

Model No.	Applicable wire(reference)	Finish	Q'ty / reel
SHC-21-001	Heater wire + Vinyl-insulated wire (Thin insulation) (0.3~0.75mm ²)	—	5,000
SHC-21T-001		Tin-plated	
SHC-21-002	Heater wire + Vinyl-insulated wire (Thick insulation) (0.3~0.75mm ²)	—	
SHC-21T-002		Tin-plated	

Material	
Brass	

RoHS compliance

Note: Before use, the performance of this splice must be tested with the wire that is to be used.
